

Press Play Films Lego Animation Birthday Party

Press Play Films can come to your home and make animations with up to 9 children aged 7+. We will assist children to realise their ideas for Lego animating by helping them to produce a Lego set using our animation theatres and coloured paper backdrops.

Once children have created their sets we will assist them to take photographs using dedicated animation web cams to produce short stop-motion animations. Children will work in pairs to create their animations. Time permitting, children will then add credits, music and sound effects to their films. The final films will be ready to watch at the end of the party where we have a parent and child screening event.

Outline of the day

12:00 Arrive to set up for the party.

1:30 Party starts: Children arrive and watch a few examples of Lego animations for inspiration. Children then create their Lego sets for animating (working in pairs).

2:30 Children photograph their animations using child friendly animation software.

3:30 Children have party food (for example) in a different room while Lara exports all films ready to watch.

4.00 Screening event for children and parents

4:30 Pack up and leave.
